

LED Creative Alpha Neon RGB is an innovation in illumination, combining the convenience and versatility of traditional neon with state of the art LED technology to deliver outstanding levels of performance and versatility.

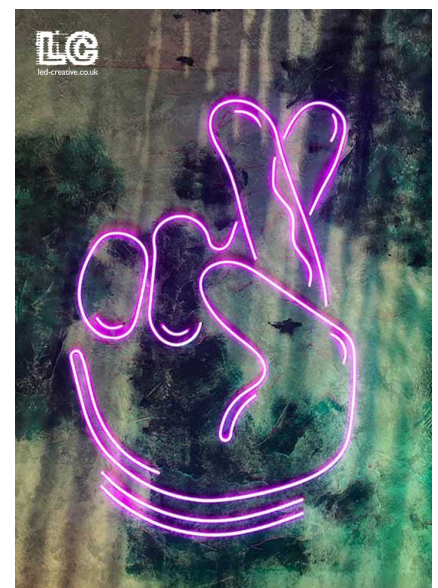

## ALPHA NEON RGB 24V

LED Creative Alpha Neon RGB is a premium quality, low energy, linear RGB LED Neon flex, manufactured to the highest standards using premium silicone and advanced robust components.

Capable of single feed runs of up to 5 metres from a single controller and IP67 rated, Alpha Neon is perfect for installations indoor or outdoor requiring clean, uninterrupted lines where colour, brightness and intensity need to remain crisp and constant throughout.

Unlike some similar products Alpha Neon is totally flexible in one plane making it perfect for moulding across intricate set installations or creating crisp, evenly lit sweeping lines.

Simple to cut and supplied ready to install, Alpha Neon is the perfect edging or highlighting solution for a huge variety of applications. From elaborate set designs to intricate sign writing.
