

The LED Creative Alpha Soft Wand is a highly effective low energy, tubular LED system. Ideal for adding decorative scenic elements or providing engaging, controllable lighting effects, the Alpha Soft Wand is the perfect alternative to traditional neon and fluorescent fixtures.

## ALPHA SOFT WAND

The LED Creative Alpha Soft Wand is an accomplished linear LED illumination system that delivers versatility and style. Supplied as an eight unit kit, Alpha Soft Wands are a convenient, easy to use way of adding colour, shape and form to any lighting installation.

Supplied as 'plug and play' rental kits, the Alpha Soft Wands are available from LED Creative in either 1 metre or 2 metre lengths and offer a choice of RGB, Cool White or tuneable Bi-Colour (2900K - 6500K) operation. Controllable via DMX or manual dimmer, Alpha Soft Wands provide users with an extremely versatile, highly controllable illumination solution that is both quick to install and simple to operate.

Perfect for creative media and broadcast entertainment builds, visual merchandising or architectural applications, the LED Creative Alpha Soft Wand system is a cost effective, comprehensive illumination solution that adds creative design elements or decorative highlights to almost any style of installation.
