

Created by the LED Creative in house Technical Team, the all new BIT CONTROLLER range is a state of the art collection of units designed specifically to work in unison with LED ribbon and decorative fixtures across all manner of installation types.

BIT CONTROLLER Range

The solid, compact, design makes the LED Creative BIT Controller perfect for 'off camera' placement or incorporating directly into set designs and creative installations of all sizes.

Quick to set up and simple to control via DMX, the range offers a choice of 1, 2, 4 or 8 x 3-channel, individually addressable outputs, each delivering up to 75 Watts per output.

With flicker-free operation and super silent models available, the BIT Controller range is the perfect accompaniment for broadcast, film or architectural LED installations where unobtrusive, silent operation is essential.
