

LED Creative Sigma Sparkle Wands are highly effective low energy, tubular fixtures available in a choice of lengths. Simple to use and instantly impressive, Sigma Sparkle Wands offer a perfect blend between dynamic visuals and versatile, manageable LED performance.

SIGMA Sparkle Wand

The LED Creative range of Sigma Sparkle Wand tubular LED illumination fixtures deliver on both versatility and style. Simple to set up and easy to use, Sigma Sparkle Wands are a convenient way of adding colour, shape and form to any lighting installation.

Supplied as 'plug and play' rental kits, Sigma Sparkle Wands are available in either 1 metre or 2 metre lengths that can be either suspended using the on board cable, or floor mounted via the LC Z Stand accessory. Extremely versatile and highly controllable via BYTE DMX controller, Sigma Sparkle Wands provide users with an effective illumination solution that is both quick to install and simple to operate.

Perfect for creative media and broadcast entertainment builds, visual merchandising or architectural applications, the LED Creative Sigma Sparkle Wand system is a cost effective, comprehensive illumination solution that adds creative design elements and decorative features to almost any style of installation.
